INTERNATIONAL IT SECURITY CONFERENCE
BUDAPEST, LURDY KONFERENCIAKÖZPONT
2ND MARCH, 2017

#BSIDESBUD2017

1 day of inspiration, education & networking on IT security:

Security BSides is a community-driven framework for building events for and by participants in the information security community. It creates opportunities for individuals to present and participate in an intimate atmosphere that encourages collaboration.

At the first BSides conference in Budapest visitors could listen to 11 presentations and take part in 4 comprehensive workshops throughout the day. Besides Hungarian IT professionals, there were speakers from Australia, Germany, Slovenia and the USA as well, making a great and truly international atmosphere.

Target group:

BSidesBUD 2017 is not only for IT experts who want to build relationships and exchange experiences with similar professionals, but it is the event for IT specialized students too, who are interested in, or want to work in the field of IT security.

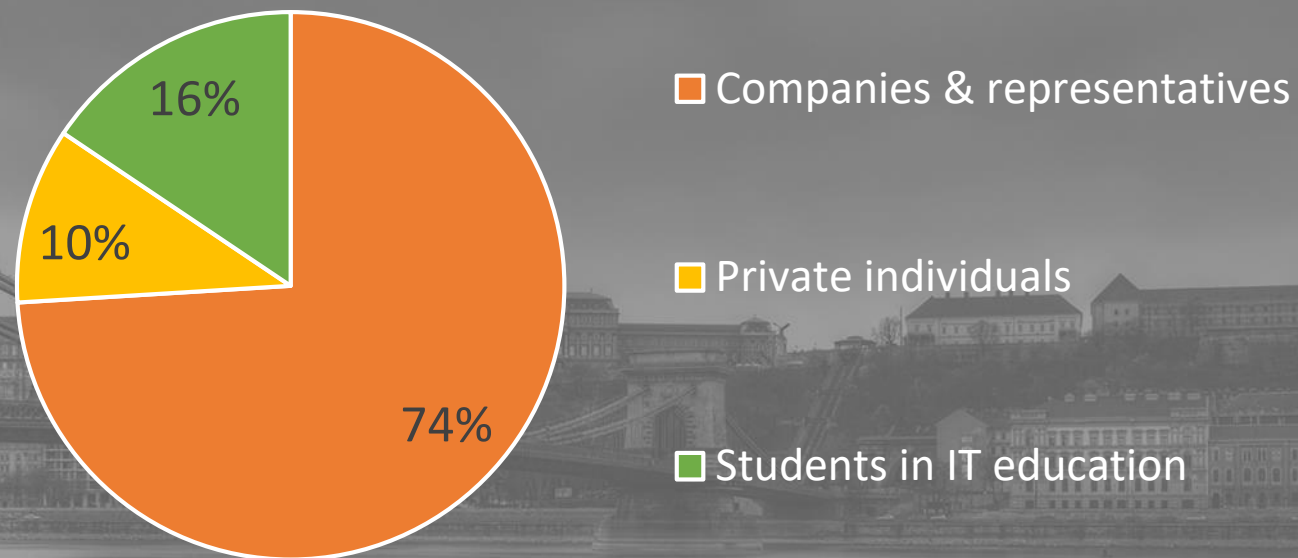

Date of next year's BSidesBUD conference:
